

Community Coalitions Support Committee

The committee supports community-led efforts to promote suicide prevention, intervention, and postvention care.

Committee Goals

- ☑ Establish connections with Coalitions to create a statewide suicide prevention network
- ☑ Establish training and technical assistance mechanisms to support Coalitions and strengthen suicide prevention efforts at the local, regional, and state levels

Training for Coalitions

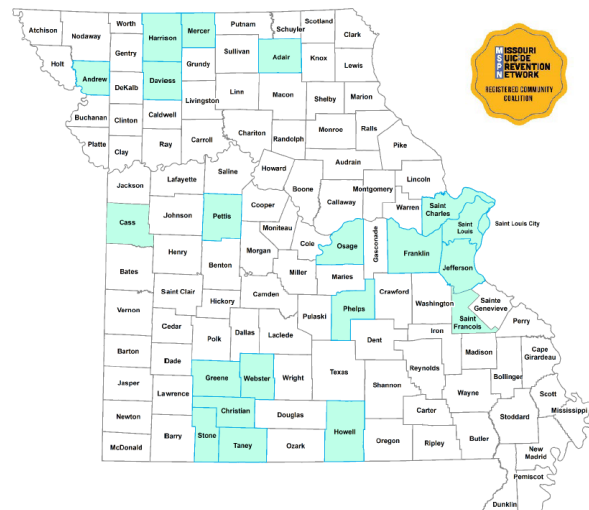

Missouri’s Suicide Prevention Coalition Academy is designed to help community prevention coalitions implement sustainable, evidence-based suicide prevention efforts. The Academy is a year-long cohort starting with a 2-day, in-person training and monthly virtual, follow-up Community of Practice sessions.

Registered Coalitions

Through our Community Coalition Registration Process, we have 15 registered Suicide Prevention Coalitions!

To learn more or register your coalition, visit mospn.org/about-5

2 Academies held in 2023 and 2024 (a third to be held in 2025).

14 Coalitions trained using the **Community-Led Suicide Prevention Framework** focused around 7 key elements for effective prevention.

Training Resource List

The Committee also collects and updates a list of available suicide prevention related trainings in Missouri.

Listening Sessions

The Committee hosted listening sessions in the summer of 2024 to learn more about coalition experiences, activities, and needs.

4 coalitions engaged in sessions with a total of 26 participants.

Challenges

All coalitions noted challenges in funding and staffing.

Needs

Coalitions identified technical assistance needs related to coalition building, strategic planning, grant writing, and capacity building. Coalitions also want to network & connect with each other!
